Surveying Services

This multi-story, 75,000 square foot complex is a mixed-use facility which includes a gymnasium and weight training area, a natatorium, a municipal library and associated support and administrative offices. This building is only part of the overall site which includes parking lots, roadways, and outdoor recreation areas.

David Mason & Associates was chosen to lead a team in the planning, design, site layout, etc., of the Municipal Complex for the surrounding community. As the prime architectural and engineering consultant, David Mason & Associates' role was to provide architectural services, civil and structural engineering, land surveying and landscape architecture.
