Pinnacle Entertainment, Inc.

Location

St. Louis, Missouri

Construction Completion

2007

Construction Cost

\$450 million

DMA Services Provided

Civil Engineering

Structural Engineering

Surveying Services

On the east side of the convention center's Edward Jones Dome, Pinnacle Casino has constructed a \$450 million dollar development to include a casino, luxury hotel and residential condominiums located in the Laclede's Landing entertainment section of downtown St. Louis. The hotel and casino are located on approximately 7.0 acres on the southwest corner of 2nd Street and Carr Street, north of the Martin Luther King Bridge. This Hotel is a five star luxury hotel with 200 guestrooms, adjoining luxury spa, banquet facilities, swimming pool overlooking the St. Louis Arch, retail shops, night club, 2000 slot machines and more than 40 game tables.

David Mason & Associates provided surveying, civil engineering and structural engineering professional services for design, bidding and construction administration phases. Additional improvements included ADA sidewalks for the entire project, and an underground pedestrian link between the Casino and Baer Plaza west of Interstate 70, a sky bridge connecting the Casino and Embassy Suites Hotel and numerous grade parking lots.
