

Dan Ryan I-90/I-94 Expressway Reconstruction

Illinois Department of Transportation (IDOT)

Location
Chicago, Illinois

Construction Completion
2008

Construction Cost
\$89 million

DMA Services Provided
Construction Inspection
Construction Layout
Surveying Services

The Illinois Department of Transportation (IDOT) reconstructed the Dan Ryan Expressway between 13th Street and the I-57 Interchange. The improved Dan Ryan included an additional lane in each direction to reduce congestion, a reconfigured skyway interchange and enhancements to the local access roads that run parallel to the expressway. Collector sewers to eliminate flooding and roadway design elements to improve safety were also installed.

David Mason & Associates provided survey layout and construction inspection for I-90-/94 north and south bound local and express lanes from 31st Street to 71st Street and 31st Street to Wentworth Avenue.

This construction management project required quick reactions to contractor requests for layout and inspections.
